Current GMHOA Classification of lot: High

Property owner's name _____

Preferred contact # _____

Can we contact you by e-mail? Yes No E-mail address: _____

Plan submitted by: Contractor Owner

Estimated project start date _____ Estimated project completion date _____

Fuel Treatment will be done by (circle one): Owner Contractor (Name) _____

- Owners are responsible for ensuring contractors have knowledge of Gold Mountain's Hazardous Fuel Treatment Standards and Safety Requirements and that the contractor adheres to forestry regulations and the CA Environmental Quality Act.
- Owners are responsible for determining if their contractor possesses the proper contractor qualifications, contractor licensing and proof of liability insurance for fuel reduction work.
- Property boundaries must be identified and flagged by the contractor and the flags must remain in place until a final inspection is completed by a Registered Professional Forester.

When you believe that work is complete, initiate a final inspection by contacting the Association Property Manager, Jennifer Treff at The Hignell Companies at (530) 894-0404 or by email at jennifer@hignell.com. Jennifer will take your information and ensure that you receive a return call to arrange for the inspection.

To file this plan return this completed form to:

The Hignell Companies
