

Local Emergency Services Study Group - Update

This brief is being provided to inform the board, staff, and public of the details of an agenda item that requires no action from the board. The President of the Board will provide board members, staff, and the public the opportunity to ask questions about this topic when this agenda item is announced.

Date: November 15, 2021

Originator: Cary Curtis

Agenda Topic Title: Local Emergency Services Group (LESSG)

Purpose of Brief: Update of LESSG

Supporting Documents Included: No

1. **Agenda Topic Brief or Update:**

The Fire Study Group last met on Sept. 28, Oct. 14, and Oct 26, 2021.

Updates since the GMCSO brief on Sept. 27, 2021, include:

- a) On Sept. 28, 2021, the Group selected Plan West Partners as the consulting firm to conduct the Feasibility Study.
- b) The cost to complete the first phase of delivering the results of the study is \$30,000. This is in line with initial estimates by the Group.
- c) Based on a positive outcome of the study, additional expenses are expected covering outreach, communications and LAFCo process fees. Additional fees will be assessed by the County. The total collective funds of the Group for this are currently \$57,000.
- d) Due to delays and to ensure the Group does not rush the public outreach component, it is anticipated the ballot measure will be Spring of 2023.
- e) At the Oct. 26 meeting, it was announced that the Chair of LESSG received communication from Eastern Plumas Rural Fire Protection District of their board decision to withdraw from the Group's effort. The reason for withdrawal was overwhelming response from their constituents that continuing in the effort was not in the best interest of the EP Fire District. It is estimated the EP Fire board of directors received 15-20 letters in opposition and 3-5 letters in support in making the decision to withdrawal. The Study Group is now comprised of four fire agencies, the City of Portola, Beckwourth Fire, Sierra Valley Fire and Gold Mountain CSD.
- f) At the Group's Oct. 26, 2021, meeting, Plan West Partner leadership and project managers met virtually with the Study Group in a kickoff meeting.

Local Emergency Services Study Group - Update

- Group participants had the opportunity to ask questions and provide input into the process that were received by Plan West.
- g) Completion of the feasibility study is anticipated to be early spring 2022. This is when the Study Group, participating agency boards and city council will know if the effort to create one new fire services district in Eastern Plumas County serving the geographical boundaries of all four agencies is a positive path forward.
 - h) On Nov. 8, Tom Cooley, chair of LESSG reported that during the Plumas LAFCo meeting that same day, two County Supervisors, Kevin Gross representing District 2 and Sherrie Thrall representing District 3 expressed their support of the effort. In addition Dwight Ceresola representing District 1 is an active supporting Supervisor since the start of the Study Group's effort.
 - i) The next meeting of the Study Group is scheduled for Nov. 23, 2021, where the group will begin to develop next steps for supporting the feasibility study effort.
2. **Anticipated Impacts to the District - (Consider financial impact, change in procedures, customer, and staff communication):**
The next step is to support development of a communication plan that will begin to inform constituents of the effort underway.
3. **Anticipated Impacts to the Customer – Standby, Residential, Commercial:**
Once a communications plan is developed, customers and owners will be invited to hear more about the efforts of the Fire Study Group. Forums and town hall meetings are being discussed.
4. **Next Steps for this Topic:**
- a) Support development of a communications plan
 - b) Feasibility Study results early spring 2022
