

Fire Coordinator Report

September 2022

We received (and sent back for programming) 4 hand held radios for Fire Cadre and CSD use. Radio service has installed the base station at the office and mobile radios in the QAV and Ranger. The mobile and handhelds will be dual use for interoperability. Meaning they are programmed with CSD/HOA and Fire frequencies.

Eastern Plumas has set up a drill in the district on Sep 8th. Tentative subject matter is Hydrants. Bringing CareFlight in was also discussed however timing may not work.

Information was set out to the three home owners that expressed an interest to Emergency Response Cadre (ERC). Links to FEMA Incident Command Training was sent.

We (Rich & I) are working with CalFire on qualifying for the excess fire equipment and the federal property program.

Respectfully submitted, Bill
